

LEWIS COUNTY PUD NO. 1

FY 2011 ENERGY STAR[®] MANUFACTURED HOME REBATE PROGRAM

Program Guidelines Effective October 1, 2011

An \$800.00 rebate for electrically heated manufactured homes built under Energy Star[®] standards purchased and/or ordered after January 1, 2011 and sited in the service territory of Lewis County PUD No. 1 is now available.

All rebate requests must be submitted within 9 months of the purchase date. The rebate will be payable only to the property owner or owner representatives. Rebates will **NOT** be paid to contractors, installers, distributors, or retailers.

Prior to the rebate payment, a permanently installed electric meter must be in place. A rebate will not be paid until such time that a permanently installed electric meter has been activated with Lewis County P.U.D. No. 1.

The customer must provide the District with the Energy Star[®] Certificate of Compliance that came with the home.

Upon receipt of this completed form, the District will verify the customer has an account at the service address listed on this form. An on site inspection will then be scheduled to verify the house at the site. A check will then be issued and the original Certificate of Compliance returned to the owner.

Please note that rebate applications must be turned in within 9 months of purchase to be eligible for the \$800.00 rebate. This program will remain in effect as long as there is funding available for it to continue.
