

## WEATHERIZATION PROGRAM

### Eligibility Requirements

An energy audit must be performed prior to the installation of weatherization measures to be eligible for rebates. Lewis County PUD provides energy audits at no charge to current customers.

Existing site built single family, manufactured, and multifamily homes that meet the heating system requirements below are eligible for this program.

### Heating system requirements

Permanently installed electric heating system

- Electric Zonal Heating
  - \* Zonal Heat Includes: ceiling cable, baseboards, wall heaters, electric boiler/water heater attached to a hydronic system
- Electric Forced Air Furnace
- Heat Pump

Some homes that utilize supplemental heating systems such as free standing stoves or fireplace inserts, may also be eligible provided these systems are accompanied by the current, and verified usage history of plug-in electric space heaters.

Homes with a forced air furnace or boiler fueled by natural gas, oil, or propane are not eligible for incentives. These customers should contact their gas or oil provider to inquire about available programs.

### Incentives

Insulation	
*Site Built Homes Only	
<i>Attic</i>	
R – 0 to R – 38/49	\$.65 / sq.ft.
R – 11 to R – 38/49	\$.25 / sq.ft.

<i>NFRC Rated U-Value .35 or lower</i>	
Single Pane	\$3.00 / sq.ft.
Double Pane Metal	\$3.00 / sq.ft.
<i>NFRC Rated U-Value .30 or lower</i>	
Single Pane	\$4.00 / sq.ft.
Double Pane Metal	\$4.00 / sq.ft.

**After the eligibility requirement has been met, the following steps are applicable:**

1. After your initial audit is completed you will receive a list of eligible measures for your home.
2. Lewis County PUD offers a courtesy list of area contractors, available in our Chehalis and Morton offices as well as our website [www.lcpud.org](http://www.lcpud.org). While not required, you are encouraged to get more than one bid to fully research the options available to you.
3. A bid review appointment can be requested by customers who are considering multiple bids and would like assistance in comparing bids.
4. A verification of the measures installed may be conducted by a member of our Energy Services team to ensure the installed measure(s) meet [program specifications](#).
5. Payment of the verified incentive is made to the chosen party.
  - Please note that if you choose to do the work yourself or have an installer other than one on our provided list do the work, you must complete and submit the weatherization homeowner acknowledgement form, and all receipts and/or paid invoices for verification. The incentive will be paid to the homeowner after a measure verification appointment has been completed.

We also offer a financing program for energy efficiency projects.

Please refer to <https://www.lcpud.org/save-energy/energy-efficiency-loans/> for more information.

The Energy Services Dept. of Public Utility District No. 1 of Lewis County looks forward to your participation in the Weatherization Program. If you have any questions, please contact us at your convenience.

## WEATHERIZATION INSTALLERS LIST

Public Utility District No. 1 of Lewis County (the District) has established a weatherization Installer's list. The presence of an installer's name on this list does not mean that the installer is financially or technically competent to perform work for you. Any contract between you and an installer listed below is at your own risk.
